This meeting has been recognised for 10 CEPD points

WORKSHOP ON FIBREOPTIC INTUBATION 29 & 30 August 2012

Dear Colleague,

This intensive workshop on fiberoptic intubation is organised by the Department of Anaesthesia & Pain Medicine, Royal Infirmary of Edinburgh on 29 & 30 August 2012.

The programme will include:

- Basics of the construction, care, cleaning and maintenance of fiberoptic equipment
- Assessment and general management of the difficult airway
- Applied anatomy of the airway and local anaesthetic techniques
- Mannikin airway endoscopy and intubation training with supervised and individual practice sessions
- Bronchoscopy in thoracic anaesthesia
- Hands-on training on anaesthetised patients
- Use of the fiberoptic scope with the intubating laryngeal mask airway
- Training with and without the use of video equipment
- Recommended reference and reading list to be sent out to participants before attending the course
- Abstracts of seminars presented during the workshop
- Dinner on 29 August 2012

The workshop is limited to a maximum of ten places which will be allocated on a first-come first-served basis - we do hope you will be able to join us. In order to meet the demand for these practical workshops it is intended to continue to hold them on a regular basis.

Course Directors

Dr Bernhard Heidemann
Dr Craig Grice
Dr Alistair Milne
